

**ECO640**

# DISGREGANT EMULSIFYING

**EMULSIFY AND BREAKS UP  
OIL, DIESEL, FUEL, SOLVENTS, CRUDE OIL,  
LUBRICANTS, SOOT ecc..**

**FOR EMERGENCY RESPONSE  
on HIGHWAYS, TUNNELS, ROADS, YARDS,  
PARKING LOTS, PAVEMENTS, PLATFORMS, etc**

**«THE TEST DISSOLVES ANY DOUBTS»**

**ECOLOGIC PRODUCT**

**Water soluble • pH Neutral • Biodegradable**

**PLANTS EXTRACTS AND DERIVATIVES BASED  
WITHOUT HAZARD SYMBOLS**

# DISGREGANT EMULSIFYING

**EMULSIFIES AND DISINTEGRATES : OIL, DIESEL, GASOLINE, SOLVENTS, CRUDE OIL, LUBRICANTS, SOOT, etc.**

**FOR EMERGENCY RESPONSE ON HIGHWAYS, TUNNELS, ROADS, YARDS, PARKING LOTS, PAVEMENTS, PLATFORMS, etc**

## CLEANS AND PROTECTS THE ASPHALT

Emulsifying disintegrating product for emergency intervention on highways, tunnels, roads, parking lots, platforms, workshop and industrial floorings, airports, ships, tanks, supermarkets, etc. It emulsifies and disintegrates oil, diesel, gasoline, solvents, crude oil, lubricants, soot, etc., rapidly.

**CAN ALSO BE USED IN CASE OF RAIN:** Maintains its effectiveness and facilitates asphalt cleaning in various weather conditions.

**ENSURES SAFETY:** highways, tunnels, roads, parking lots, platforms, workshop and industrial floorings, airports, ships, tanks, supermarkets, etc.

**PROTECTS THE ASPHALT:** from damage caused by diesel, gasoline, and engine fluid leaks.

**ECO-FRIENDLY PRODUCT:** Respects the environment and is not hazardous to operators.

**NON-FLAMMABLE:** Poured on diesel, gasoline, and solvents, it prevents fires.

**NON-SLIP:** Prevents vehicles from sliding and contributes to securing roads, highways, ports, and contaminated platforms from accidental spills or leaks of fuels, oils, and engine fluids.

**TO SMOTHER FLAMES:** Pour the product on small fires.

**FOR ROAD RESCUE VEHICLES:** Essential for tow trucks, highway police, etc., to quickly clear roads from oil, gasoline, and engine fluids after accidents.

**POUR ON ICY SURFACES** such as steps, sidewalks, etc., to prevent slipping.

**HOW TO USE:** Pour the entire contents of the bucket onto fuel, oil, or other liquids, distribute the product with a brush, broom, or sweeping machine on the surface affected by the spill

**Size: 5 kg**  
**Pallet: 120 buckets**

**Size: 10 kg**  
**Pallet: 65 buckets**

## FEATURES

**Composition** (EC Reg. 648/2004): Pure alpine salt, plant derivatives, plant extracts, non-ionic surfactant <1%, perfume.

**Physical and chemical properties.**

**Appearance:** White grainy cream.

**Odor:** Characteristic.

pH: 6.0 ± 1.0

**Water solubility:** Complete.

**Classification information**

The product is not considered dangerous according to EC Regulation 1272/2008 (CLP). Therefore, according to the provisions of art. 31 and 32 of the REACH regulation, the preparation of the safety data sheet, but only the sending, along the supply chain, of some information for the end user.

Without phosphonates, without enzymes, without sequestrants, without preservatives, without dangerous volatile substances (V.O.C) defined by the European Directive 1999/13 / EC and subsequent amendments. and subsequent directive 2004/42 / EC. Easily and quickly biodegradable.

**No dangerous label**

# NON-HAZARDOUS WASTE

## CER 16 10 02

Description

Aqueous liquid waste, other than those under code 16 10 01

Admissible for some recovery operation

No

From the test reports of accredited laboratory No. 1594L Accredia with ISO 9001-2015 quality management system, it is evident that aqueous solutions derived from the application of the "Emulsifying Dispersant" on spills of diesel, crude oil, and motor oil are non-hazardous and moderately degradable. Therefore, they are compatible with natural biodegradation processes.

According to the laboratory report, the resulting aqueous solutions comply with EU regulations, as the substances mentioned are not present in the waste production cycle. To obtain the final classification, the laboratory also assessed the characteristics of non-flammability and the absence of substances classified as hazardous according to the latest European regulations.

## EUROSICURA GRUPPO

*Our Mission*

## DISGREGANT EMULSIFING

WHO WE ARE · WHAT WE BELIEVE IN · PASSION

At Eurosicura Gruppo we don't do things simply "because we must have to be done": we believe in passionate work every day and in the ability to add enthusiasm and dedication to all segments of the supply chain. Passion brings customers closer and conquer them, makes those who work in our company more proud and involved.

We are the only ones in the world to use plant extracts and derivatives present in the leaves of over 2000 plant species for the production of specially designed detergents, detergents and technical cleaners.

We operate in total respect for the environment, on the one hand by observing all the regulations in this field, and on the other by selecting producers who care about sustainability issues.

An entrepreneurial and ethical commitment that we undertake every day in the choices of today and tomorrow.

For us today it is as if it were the first day because at Eurosicura Gruppo we like to never stop, which is why we are continuously looking for innovative solutions to improve the efficiency of all our products.

**In Eurosicura Gruppo Srl the future ... is Now.**
