

SUPERCLEANER ODOURS ERASER

Without dangerous symbols

pH NEUTRAL · SANITIZING

REMOVE ODOURS AND DIRT

Product based on plant extracts and derivatives suitable for deep cleaning, degreasing, and deodorizing all surfaces in industrial areas and environments. It thoroughly cleans and eliminates odors from hydrocarbons (diesel, lubricants, gasoline, solvents, etc.), fats, vegetable and mineral oils, active sludge residues, etc.

It disintegrates and eliminates odors from industrial or civilian areas, landfills, composting areas, storage areas for exhausted sludge, vehicles, and dumpsters for waste collection and transport, commercial areas, etc..

Free from phosphonates or phosphates, without enzymes, without sequestrants, without volatile organic compounds (VOCs) defined by European Directives 1999/13/EC and 2004/42/EC and subsequent amendments.

Rapidly biodegradable product.

CONTAINS (Reg. EC 648/2004): Plant extracts and derivatives, <5% non-ionic surfactants of plant origin, fragrance.

INDUSTRIAL CLEANING AND ODOR ELIMINATION

INSTRUCTIONS FOR USE

Conduct a test before carrying out the tasks. For thorough cleaning and to eliminate persistent odors from paved areas, storage areas for purification sludge, waste transport vehicles, dumpsters, manholes, degreasing tanks, sinks, pipes, changing rooms, toilets, etc., spray the product either undiluted or diluted depending on the level of dirt or odors to be eliminated. Do not use

the undiluted product on plexiglass, plastics, and polycarbonates (e.g., headlights and turn signals, mirrors, dashboards, odometers, etc.).

Attach the technical data sheet and safety data sheet to the company plan for use in professional activities subject to compliance with Legislative Decree 193/07 (**H.A.C.C.P.**) and Legislative Decree 81/08 and subsequent amendments.

OUR MISSION

WHO WE ARE
WHAT WE BELIEVE
PASSION

At Eurosicura Gruppo we don't do things simply "because we must have to be done": we believe in passionate work every day and in the ability to add enthusiasm and dedication to all segments of the supply chain. Passion brings customers closer and conquer them, makes those who work in our company more proud and involved.

We are the only ones in the world to use plant extracts and derivatives present in the leaves of over 2000 plant species for the production of specially designed detergents, detergents and technical cleaners. We operate in total respect for the environment, on the one hand by observing all the regulations in this field, and on the other by selecting producers who care about sustainability issues. An entrepreneurial and ethical commitment that we undertake every day in the choices of today and tomorrow. For us today it is as if it were the first day because at Eurosicura Group we like to never stop, which is why we are continuously looking for innovative solutions to improve the efficiency of all our products.

In Eurosicura Gruppo Srl the future ... is Now.
